## REQUIREMENTS FOR OBTAINING A MEDICAL CANNABIS ID CARD

- An Oklahoma licensed and practicing physician or podiatrist may recommend medical cannabis for any condition they believe will be improved through the administration of medical cannabis
- A medical record and a bona fide relationship must exist with the patient
- The physician or podiatrist must recommend medical cannabis according to the accepted standards a reasonable and prudent physician or podiatrist would follow for recommending or approving any medication
- If applicable, the physician or podiatrist may certify that the patient is homebound or does not have the capability to self-administer or purchase medical cannabis due to a developmental disability or a physical or cognitive impairment; and the physician or podiatrist believes the patient would benefit from having a caregiver with a caregiver's license designated to manage the patient's medical cannabis on the patient's behalf.
- The physician or podiatrist must verify the patient's identity as provided in the Oklahoma Medical Marijuana Authority Rules (310:681-1-7)
